Product Category

Pendant

Material

Stainless steel, polycarbonate

Cable

4m, clear PVC cable

Ceiling Rose

Hemisphere. Colour matches the product

Lightsource

UK/EU E27 Max 100W, USA Max 100W (not included)

Recommended Bulb

Beads works with a variety of different LED bulbs. LED globe bulbs 500 – 800 lumen output and from 2700K – 3000K colour temperature. These styles are particularly effective in the white colour and in the metallic options for a softer less reflective look. LED filament style bulbs will bring out the reflective qualities of the metallic finishes brilliantly. Best performance would be from 600-900 lumen output with 2200K – 2700K colour temperature

Color

01 -White

03 -Chrome

07 -Copper

31 -Gun Metal
